

Lecture in the Keller House

In cooperation with the [Gottlieb Schumacher Institute](#)
and the [Goethe Institute, Tel Aviv](#)

Malka Haguel-Spitzberg

Am HaZikaron, Institute of Science and Heritage of the
Jewish People

The Families of the Frankfurt Ghetto and their Descendants Today

The names Rothschild, Schiff, Stern, Worms and Oppenheimer are known to almost everyone. From these dynasties emerged outstanding personalities who shaped the history of mankind. Similarly, there were many other families that produced physicists, musicians, actors, or writers. All came of them came from the confined area of the Frankfurt Ghetto.

Malka Haguel-Spitzberg presents the current state of the academic research project with the same title that also addresses the interested public who would like to know more about the history of Jews in Germany.

Am Hazikaron works on this project in cooperation with the Hebrew University and the Dubnow Institute. At the end, a special publication will be issued which will be presented in various museums
